- Tod Massa - SCHEV – *"Transparency and Affirmation: The Mirror that is SCHEV."* Virginia institutions provide a great deal of data to SCHEV. In turn, SCHEV publishes a lot of data and information, some of which few institutions could duplicate on their own or without data from other providers. These data can be used to tell important stories about institutions but will often lack the nuance that should be used at the institution level. During this session we will look at some of the data tools that are available from SCHEV and how they might be used in self-study process.
- Marty Sharpe - ODU – *"Addressing Student Learning Outcomes as Part of SACSCOC Requirements for Institutional Effectiveness."*
